NAI FOOD National Advanced Industry الشركة الوطنية المتقدمة للصناعات الغذائية	**Food Safety Policy**	NAI-PO-01 Rev. Date: May 2025 Rev. 1

Scope: The National Advanced Industry for Food company manufactures and packs breakfast cereals in accordance with customer requirements and market demands.

The company is committed to:

- Establishing and reviewing food safety objectives to ensure continuous improvement within the Food Safety Management System.
- Identifying internal and external issues, including those related to climate change—and minimizing contamination risks in all business activities to enhance food safety resilience.
- Providing food products that meet applicable food safety, customer, statutory, and regulatory requirements, in compliance with global food safety standards, Good Manufacturing Practices (GMP), and Good Hygiene Practices (GHP).
- Collaborating through relevant communication channels with internal and external interested parties on matters related to food safety and environmental impact.
- Maintaining and continuously improving the FSMS to effectively manage operations and adapt to changing environmental conditions, including those influenced by climate variability.
- Providing training programs to enhance individual competency and awareness of food safety risks, threats, and climate-related vulnerabilities in the food production process.
- Promoting sustainable practices and evaluating the impacts of climate change on food safety risks, raw material quality, supply chain stability, and regulatory compliance.
- This policy is communicated through appropriate internal and external channels and is regularly reviewed to ensure continued suitability, effectiveness, and compliance with evolving food safety standards.

Food Safety Team Leader **General Manager**
